

This is a complex top-down schematic of an indoor arena floor plan. The central area is light brown/tan, surrounded by blue walkways or service areas. Various geometric shapes like triangles, squares, and circles are scattered across the floor, some in clusters and others isolated. Numerous small black dots represent individual people or objects. Several larger, more prominent icons include a red truck-like vehicle in the upper left, a large grey mechanical structure in the upper center, and a dark blue figure in the lower right. Circled letters A, B, and C mark specific locations: 'C' appears twice on the left side, 'A' and 'B' are near the bottom right, and another 'B' is at the very bottom. There are also rectangular boxes of different colors (orange, yellow, white) placed throughout the plan, possibly indicating stages or information desks. The overall layout suggests a large-scale event with designated zones for different activities or audience segments.
